Together, with Style

Elleci is a **collective story**, one in which entrepreneurial spirit, individual talents and shared dreams have come together in an ambitious project: forging a connection between technological progress and humanistic values. A strong and unmistakable vision that puts **people in the centre** of the product design and manufacturing process: the result is a **unique style**, one that takes an appreciation for **the beautiful, the useful and the joyful** and gives it a modern take.

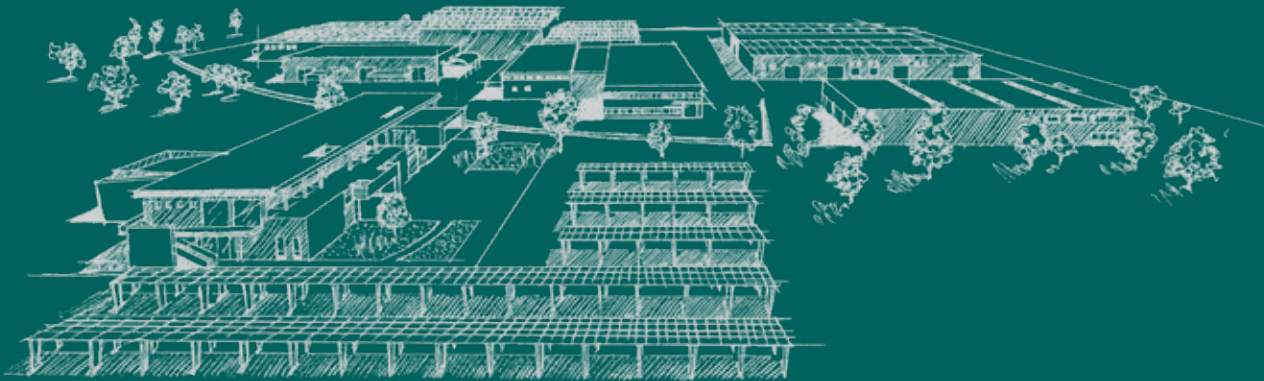

elleci district

For over thirty years, we've been creating innovative materials and bringing to life ideas that improve people's quality of life.

Elleci District is a tech hub where every department develops and shares specialist expertise in a virtuous circle to take our company know-how to the next level.

The Elleci Innovation Centre is the focal point of our headquarters, bringing together researchers, designers, engineers and technicians who all work together every day to develop new solutions.

100,000 sq m	Total floor area	50,000 sq m	Factory floor area
1.2	Million units/year	Production capacity	

elleci plant 1

Original facility focused on product customization.

elleci plant 2

New facility geared towards sustainable technology and automation.

elleci innovation center

Permanent R&D lab developing materials and products.

elleci care

Professional pre- and after-sales customer support.

elleci home

Area currently under construction for hospitality, training and social engagement.

Innovation equals responsibility

The journey to a sustainable growth model is marked by clear goals, real-world actions, and certified quality. It is a daily commitment for a better world.

Environmental

The 2030 green transition plan hinges on recycled and renewable raw materials, clean energy, water reuse, and a reduction in emissions and industrial waste.

Social

To support professional growth and the quality of life of our workers, we develop training and company welfare initiatives along with new formulas to promote a healthy work-life balance.

Governance

The challenge of achieving sustainability doesn't end with short-term goals, and instead lies in making sustainability the driver of our future growth.

- 
ISO 45001/2018
 for occupational health and safety management
- 
ISO 14001/2015
 for environmental management in terms of the correct impact of company activities on the ecosystem
- 
ISO 9001/2015
 for quality management to ensure customer satisfaction, in terms of ongoing development and improvement

Materials

In the Elleci Innovation Centre, our team of researchers merges expertise and industry-leading technology with innovation. The resulting materials offer high performance, created to have a positive impact on people's daily lives.

GRANITEK

A material engineered with quartz sand whose distinguishing features are its slightly textured stony surface and natural colours. The technology brings out the stone's inherent qualities and improves its performance, resulting in a hygienic, highly resistant and durable surface.

GRANITEK

KERATEK

From the deepest blacks to the purest white, with a selection of warm tones and alluring greys in between, the stony beauty of Granitek and elegance of Keratek come in a range of contemporary shades, embracing a different sensory approach. Three classic colours complete the offering.

elleci kitchen

Organization, style and everyday pleasures:
kitchens designed around the lives of their inhabitants.

The kitchen is the heart of the home, the place where we share stories, laughs and little moments of happiness. A quick breakfast to set you up for the day, a family lunch, an intimate dinner or a night of entertaining: every moment we spend with our loved ones is precious.

Elleci Kitchen provides you with your very own daily haven, delivering solutions designed to create beautiful and incredibly practical spaces, turning everyday routines into an engaging and highly rewarding experience.

It's all about the materials. Granitek with its natural tones, Keratek with its deep, sophisticated nuances and our Total Black editions elevate the design of our sinks. The prep area evolves into a versatile workspace with the addition of accessories designed to move with you and mixers that combine advanced function with on-trend finishes. The base unit under the sink becomes a well-organized, hi-tech, high-performance space with the Elleci Pure water filtration system and Elleci Zero organic waste disposal, catering to the desire for a hassle-free and sustainable lifestyle.

The collections featuring coloured and glass hobs, ovens and small appliances designed for a coherent look provide you with the ideal technological tools to express your creativity, have fun and cook with love.

In a kitchen tailored to you, everything's easier, giving you time to enjoy the things that really matter, every day.

Trends

Black-on-black elegance and natural shades.
New products, colours and special collections

Deep black cements its status as a truly stylish option and is a trend set to stay.

From matte black sinks and mixers to refined appliances, black is the most popular colour choice, giving the interior a distinctive, modern character.

The hottest interior design trend is an emphasis on natural colours. Bianco Soft, Tortora and earthy shades give a feeling of warmth, authenticity and comfort, inspiring a relaxing atmosphere that makes the perfect setting for gathering and entertaining.

Trends

Gun metal, black and grey A new finish and on-trend accessories

The dark tones of the Black, in its deep, matte guise, and of the new Gun Metal complement the aesthetics of our mixers and metal components to perfection. The ultra-modern look evokes a boldness, ruggedness and technologically cutting-edge feel.

Flow Pro
drain system
black

The latest generation of multitasking accessories is made from silicone and premium plastics. Lightweight, strong, safe and easy to clean, they are designed to offer a creative approach in the kitchen and become statement pieces in their own right thanks to cult colours like Black and our new Grey.

Drain System

The modern drain system: good looking, efficient, practical to use and maintain

Open Up

Push remote control with a pared-back look.

Open Twist

Twist remote control with a super-sleek surface.

Flow Pro

Flow Pro redefines the drain concept and turns a technical component into a distinctive feature, taking ergonomics, functionality and aesthetics to a whole new exclusive level.

Black

Gun metal

Stainless steel

The optional remote controls interact with the different **Flow Pro, Flow and Ghost** systems to elevate the user experience by allowing you to open and close the drain remotely.

The three finishes — Black, Gun Metal and Stainless Steel — enhance the design and create a coherent look across the whole interior.

Open Up

Open Twist

Flow

Clean lines and a touch of style are the distinguishing traits of Flow, which is designed to improve water outflow and usability compared to traditional drain systems.

Black

Stainless steel

Ghost

The cover conceals the drain and becomes a design feature, matching seamlessly with the bowl, mixer and accessories or used to create colour contrasts.

Black

Stainless steel

Smart area

Smart, hi-tech, eco-friendly: organize your under-sink cabinet with advanced functionality

eleci pure

The filtration program removes the harmful substances found in your water supply and makes your water healthier and better tasting than ever before by using a combination of microfiltration, activated carbon and silver salts to treat your tap water.

eleci zero

The organic waste disposal system rids the kitchen of overflowing waste bins and bad smells. Convenient, safe and whisper quiet, the food waste disposal unit grinds and removes food scraps in a matter of seconds, flushing them out into the wastewater system together with the tap water.

STAINLESS STEEL

Stainless steel sinks express a timeless aesthetic sensibility. Each collection has its own distinctive trait: Compass with its integrated tap ledge; Esprit with its pared-back lines; W-Square with its Square Drain System; and Sky with its impressive versatility.

Stainless steel COLLECTION

Light bounces off the satin-finish steel to produce a soft, uniform glow, while the matte finish enhances its modern character. Resistant to scratches, staining and wear, it offers the ultimate in hygiene and will keep looking beautiful.

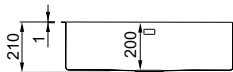

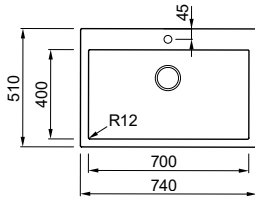

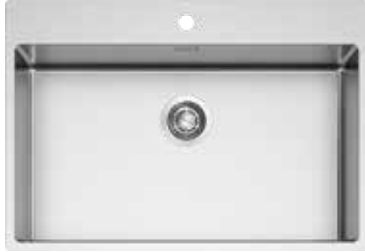

Sinks x Stainless steel

ALL COLLECTIONS HAVE A FULL COMPLEMENT OF MATCHING ACCESSORIES IN THEIR ARSENAL

On-trend finishes, quality built to stand the test of time and increasingly green-minded solutions

From fashion to design, **Gun metal** is the latest on-trend colour, used to imbue these professional tap taps with a combination of contemporary refinement and a captivating industrial vibe.

Convenience and function: **the extendable hose** reaches every corner of the sink, for easier cleaning. The spray pattern control adjusts water flow to suit your requirements.

Our selection of tap taps made from high-quality 100% **stainless steel**: naturally hygienic, highly resistant and environmentally sustainable, with a brushed finish.

With the lever in the central position, the default setting is for the tap to dispense cold water, while the 2-step cartridge and low-flow spout **avoid unnecessary waste**.

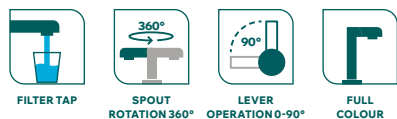

Filtration, a responsible and cutting-edge choice

Find out more about the collection of filter taps that can be used in conjunction with the new Elleci Pure water filtration system, and get clean, safe and great-tasting drinking water straight from your kitchen tap. With a whole host of benefits for you and the planet.

Tourmaline PURE

Dual-lever three-way water filter tap with swivel spout.

elleci pure

Pure water, natural taste and respect for the environment

Imagine turning on the kitchen tap and having an endless supply of quality drinking water that's clean and rich in essential minerals for your family's health. Imagine no longer having to go to the supermarket to buy water by the bottle or crate load, having to haul it back home and then having to find room for it in the pantry.

Installing an under-sink filter is a smart and convenient way to save yourself money, time and stress. And make a valuable contribution every day to keeping the world free of plastic waste.

Elleci Pure Micro

The Elleci Pure Micro filtration system achieves excellent performance with the combined action of different methods

-  **1. Microfiltration**
Traps rust, mold, algae and suspended microparticles as small as 0.5 microns
-  **2. Activated carbon**
Removes chlorine, metals and toxic residues, using 100% sustainable activated carbon
-  **3. Silver salts**
Prevents the growth of microorganisms, having a powerful antibacterial action

SPECIFICATIONS

Multi-action 0.5-micron filter with activated carbon and silver salts

Service life
15,000 l/year — ideal for a single family's annual consumption

NB The filtration system works effectively with drinking water only

ACCESSORIES INCLUDED

Filter head, valve, digital water meter

**pure
water**

Purifies water by removing bacteria, viruses and harmful substances

**pure
taste**

Improves water taste, odour and hardness considerably

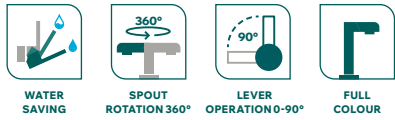

**pure
planet**

Reduces plastic usage and CO₂ emissions

elleci zero

Say goodbye to waste and smells

The food waste disposal unit is a must-have tool in your kitchen arsenal to keep the space clean and tidy. Whether prepping food or tidying up after a meal, this small appliance punches above its weight, offering advanced features to immediately dispose of organic waste emptied down the sink drain, without having to fill your food waste bin.

The Elleci Zero waste disposal system grinds organic waste and transfers it into the wastewater stream in a few simple steps:

1. Turn on the cold water and allow to run
2. Use the Air Switch to turn on the disposal unit
3. Empty your food scraps down the drain: vegetables, fruit, fishbones, shells, chicken bones, etc.
4. Keep the water running until everything has been disposed of

Good daily habits are the best contribution we can make to a sustainable future

Encourages recycling of organic waste

Reduces transport-related CO2 emissions

Minimizes methane gas emissions generated by waste in landfills

Supports the water treatment process

Helps with the production of biogas and compost

zero waste

Reduces organic waste and keeps the kitchen clean and healthy

zero odour

Eliminates smells caused by accumulating waste

zero risk

100% safe even for children and pets

elleci zero

Easy to use and always ready for action

Elleci Zero has been designed to deliver unbeatable safety, power and speed of disposal, minimizing vibrations and noise and taking up next to no space in the base cabinet under the sink.

Instant disposal

Reset system ensures complete safety

Protection from bacteria and odours

Whisper quiet

Stainless steel flanges and components

Air Switch included

Easy installation

Compact size

Compatible with both composite and steel sinks

2 Solutions designed to cater to the requirements of every household

Stain remover

Stain remover spray cleaner, removes even the most stubborn stains on all Elleci composite sinks and washbasins.

200 ml
DLA01603

DAILY CLEANER
Limescale remover

Limescale remover spray cleaner, dissolves scale while being kind to surfaces. Recommended for periodic cleaning of Elleci composite sinks and washbasins.

100 ml
DLP01601

Beauty Protector

Protective spray cleaner, protects the product from dirt and limescale and keeps it looking beautiful, reviving its colour and boosting its water repellence.

KEB00103

Beauty Kit

Three must-have products for the complete care and cleaning of composite sinks: the Stain Remover works deep down; the Limescale Remover cleaner eliminates scale; and the Beauty Protector revives colour.

250 ml
DLA01602

DAILY CLEANER
Clean Power

Spray cleaner specifically formulated for coloured and enamel surfaces. Recommended for daily cleaning of coloured Elleci tap taps and appliances.

DKP01000

FAST CLEAN
Sponge kit

Kit comprising 3 non-scratch two-sided sponges designed to remove even the toughest dirt and grime. The white side tackles delicate surfaces without scratching them, while the soft blue side has plenty of absorption power.

DKP01001

FAST CLEAN
Microfibre cloths

Kit comprising 2 highly absorbent microfibre cloths with a special chequered pattern for drying sinks and removing residues of all kinds without damaging the surface.

Care and maintenance

Elleci Beauty is a line formulated to bring out and protect the beauty of composite sinks. A daily care routine that will keep Elleci products looking and performing like new.

Elleci Beauty cleaners deliver deep-down gentle cleaning, day in day out. Each formula is the product of painstaking research and has been designed to tackle even the toughest stains, remove germs and bacteria, dissolve scale and retain colour intensity.

Your daily routine for a sink that always looks flawless

Remove any stains using a soft sponge and a mild dishwashing liquid or specific product from the Elleci Beauty line.

Rinse surfaces using plenty of lukewarm water.

Dry the surface thoroughly with a soft cloth or microfibre to stop limescale deposits forming.

To prevent limescale staining on the surface, it is best to give surfaces a deeper clean once or twice a week using a limescale remover cleaner like the Daily Clean limescale remover spray from the Elleci Beauty line.
